Dear teachers,

The George C. Reifel Migratory Bird Sanctuary invites you to join us for an orientation session on field trips to our conservation area. The Sanctuary is a great place for children to learn about our local ecosystems and how the wildlife interacts with each other and their habitats. With the backdrop of the rural landscape of Westham Island, students can experience an up-close look of the birds that use the Fraser River Estuary, as well as a hands-on portion in our taxidermy museum.

We will go over what you can expect if you book a field trip with us, BC curriculum covered, and best times of year to visit depending on age group or desired learning outcomes. Our booking system for guided tours has gone through a few changes, so we will go over that as well.

If you are looking for activities to do with your class before coming out to the Sanctuary, or want more information on our organization, our website (reifelbirdsanctuary.com) has many free resources available.

The workshop will be held on October 20th, 2023, from 9:30 am to 11:30 am. A fee of \$8 will cover the info session as well as admittance to the trails, so feel free to bring a lunch and explore the Sanctuary afterwards. If you are interested in coming out for this workshop, please email by October 6th to register.

We look forward to hearing from you.
